

**Pay-Off  
1600mm Reel**

## Slab Sided Pay-Off & Take-Up Stands

- The stand comprises of fabricated steel plate base frame on which is mounted on vertical rigid side frame housing supporting idler and drive pintle, very stable for high speed running
- The pintles are adjustable in/out for reel bore location
- The reel is loading along floor onto hydraulic lift cradle which is hand pump or motorised hydraulic lifted to pintle height
- Pay-Offs can have drag brake or driven by a variable speed AC motor and controlled by an Inverter with direct drive gearbox to pintle drive arm
- Take-Ups will be AC variable speed driven by dancer or tension control, traverse guide fingers by variable roll ring drive unit

**Pay-Off 1000mm Reel**

### Safety Features

- With emergency pneumatic disc brake
- Cut-outs and interlocks on all major movements
- CE conformant Guarding
